

What is the Regional Innovation Network?

The Regional Innovation Network is an opportunity to bring together in one cohesive manner the events and opportunities for entrepreneurs that live, work, and play along the Interstate 41 Corridor. I-41 Corridor participants of the Startup Wisconsin Week initiative include Appleton, Fond du Lac, and Green Bay.

This Network tasks you to consider the opportunities that lie within mere moments of you if you live near or in one of these communities. With I-41, you are minutes away from everything, including these amazing events.

Use this handy color key to find where events are happening in the region!
